

SCOTT BRENAMAN

222 SW Harrison St, #9C | Portland, OR 97201 | (425)870-2007 | sbrenaman@gmail.com

OBJECTIVE

To find employment in the mechanical engineering field while I finish my mechanical engineering degree at Portland State University.

EDUCATION

Associates of Science – Mechanical Engineering Transfer Degree June 2008
Edmonds Community College, Lynnwood, WA

- Other classes: Graphic Design

SKILLS, ABILITIES & INTERESTS

- 2010 lead engineer of the Portland State Formula SAE team; responsible for collaborating with approximately 15 students to ensure the goal of a quality, well-engineered product is delivered on-time and to our standards.
- Worked to secure monetary, material, and labor donations from many local Portland companies, to fundraise for the FSAE team.
- Worked with outside vendors, providing detailed part drawings, assuring the delivered part will meet our tolerances and standards.
- Worked with the university's budget team to plan and organize the team's budget.
- Raced cars with the SCCA from 2003-2008 actively and held a leadership role in 2005.
- Prepared and maintained a 1991 Integra for STS class autocross from 2003-2007.

EXPERIENCE

Mechanical Engineering Intern

Electroimpact, Inc., Mukilteo, WA (2004-2009)

- Responsible for assisting the mechanical engineers in the design and production of tooling in the aerospace industry.
- Produced/Assembled parts and assemblies to specifications laid out in detailed part and assembly drawings.
- Worked productively and managed my own time in a self-directed environment.
- Assisted the project proposals department with innovative solutions to problems with CAD models, to help secure future business.
- Implemented, distributed, and provided technical/usage support for SolidWorks (versions 2006-2010) CAD software, along with PDMWorks and Keytech, two PDM/PLM software packages.
- Worked closely with an outside vendor to organize and standardize a company-wide tool crib layout.
- Worked with large-scale 3D metrology tools to assist in the production/verification of aerospace tooling.

Server/Busser

Giorgio's Pizza and Pasta, Everett, WA (2001-2004)

- Provided prompt table service and fostered customer satisfaction in a fast-paced environment
